

Monthly Report

No:....3..../6

Name of Intern: Noor Saleh Aljasim UOH I D 201807803

Name of Employer: Maternity and Children Hospital in Hail

Name of Faculty Advisor: Dr. Shoayee Alotaibi

Academic Department Info. and Computer Science (software engineering)

Instructions:

The monthly progress report is to be completed and signed by the Intern every month, discussed with the Site Supervisor. **All monthly reports will be sent to the COOP Director and to the Faculty Advisor at the same time.** It must be faxed to (966) 53510228 or emailed to coop-ccse@uoh.edu.sa no later than the Sunday following the month period it covers. **IMPORTANT: Each of the following five items must be at least thirty words long and typed in paragraph form**

1. Describe your principal assignment and responsibilities during the last month (Please tell us the exact nature of the job or jobs you were given. Also tell us whether this is according to the Training Plan you sent us at the beginning of your internship. If not, tell us why. You may need to ask your Site Supervisor for the reason why). (3 marks)

This Month we are completing developing the software systems that we did finish its first and second phases in the previous months.

My tasks were :

-Start implementing the server side of the system using python and Django and SQL for the Database.

2. What experiences were particularly rewarding during this report period? (Here tell us what you think you learned, what technical/professional aspects of your job you found enlightening and why. For example, you can tell us things like similarities or differences between what you thought things would be like and what they really are; how your mastery of any UOH-learned subject helped you accomplish a task, etc. Your answer must reflect technical/professional understanding). (3 marks)

Learning Database design and database management systems were very helpful in this phase also, all the programming principles now make more sense for me when I face it on real-world projects.

3. What experiences were particularly disappointing or frustrating? (Here tell us what aspects of your job you found harder or less interesting than others and why. You can also tell us of any job-related problems you encountered; how they were or could be solved or why you think the solution taken was not the most appropriate. Here too, your answer must reflect technical/professional understanding). (3 marks)

None. All the employees are very friendly and professional.

4. Describe other professional growth opportunities (e.g., conferences, meetings, workshops) that you were able to capitalize on during the past month and/or hope to have over the next month. (Tell us how you think a meeting, workshop, etc was beneficial to you). (3 marks)

I do mention the Futurex web development track in the past report and I am still very grateful for the opportunity and still working on it to finish it on time.

5. Tell us what your training plan for the next month is. Also tell us what activities you will carry out to accomplish the objectives outlined in this plan. (Ask your Site Supervisor for this. If they have no specific plan in place, ask him to tell you what he thinks you will most likely be asked to do). (3 marks)

- 1-accomplishing the third phase of the clearance system project development process and finishing the implementation.
- 2- Start the next phase by applying all types of testing on the system starting from the unit testing to the acceptance testing.
- 3-Hopefully finish the entire project and start working on new projects.

6. Other comments. (Here you are free to write anything; you can also complain about us if we are not doing something you think we should be doing; for example answering your emails, phone calls, etc.) N/A
